MONDAY MORNING, SEP. 22, 1851.

BTP We should like to know what progress the special Committee of the Senate is making in investigating the affuirs of the office of the General Treasurer, to accertain how much the Dorr rebellion cost the State. At the last session of the Assembly, the Senate appointed this Committee for the protended purpose of examining the papers of the Treasurer, to ascertain how the pnaccounted surplus in Mr. Cahoone's hands had arisen,-but they well knew that this was almost next to impossible, as the auditing Committee had carefully examined the matter, and they were unable to solve the mystery ; -- therefore, the real, bonn-fide object of this investigation is to find out what the Dorr rebellion cost the State, with the hope of ranking political capital out of it, by exctaiming against Whig extravagance, as they term it.

This is a loculoco movement. The locofocos, with a few honorable exceptions, were the Dorrites, and they created the rebellion and caused the necesmity for the expenditure of the money for the purpose of preventing a lawless mob, under the leadership of Dorr, from trampling upon the institutions of the State, and taking the control of the govermnent from the hands of its duly authorised officers. And now these same locofoco Dorrites, since they have accidentally come into office for one year only, are diving into the Treasurer's office, the first thing, to ascertain how much their own iniquity cost the State. Well, this is very modest, to be sere .-The acting portion of the Committee is composed of Macy, Whig, Bradford and Anthony, Democrats. George Turner, Esq., Democrat, is Clerk of the Committee. They have been at work now about two weeks, and from present appearances, judging by the progress which they have made, thus far, they will not complete their labors under five years. Well, these gentlemen cannot afford to work without compensation .-The members of the Committee will want at least \$5 per day for their services,-and Mr. Turner will think that \$10 per day will be little enough renumeration for him, as he will probably have the bulk of the labor to perform.-So that it is very plain that the cost of this noncentical investigation, which is ordered by the locofecoscolely for party purposes, will be as much, if not more than the whole expense of the Dorr rebellion, the cost of the fatter's trial and conviction of 'Preason, included. And what will it all amount to ? Why when the amount is accurately ascertained and published, it will only be an additional stigma upon the Dorrites and less focus for they caused the expense, and they alone made it necessary for the law and order General Assembly to ex pend the money for the purpose of say ing the State, and protecting the lives and property of its entirens from the plunder of Do r and his ruffan gang, nided and assisted by Mike Walsh and his famous Spartan Band of New York rowdies.

> 更字President Fillmore has appointed the Hon. Benjamin R. Curtis, of Boston, one of the Justices of the Supreme Court of the United States, to fill the vacancy occasioned by the death of the Hon, Levi Woodbury. Mr. Curtis has accepted the appointment.

We are heartily glad that cy on the Bench of the highest judicial tribunal in the country has been filled by so able a man as Mr. Curtis; and while the appointment is a high honor to Mr. Curtis, it at the same time to flects the greatest credit apon the sagac ity and wisdom of President Fillmore Mr. Curils is one of the ablest lawyers in New England, and, all things considered, he ranks next to Mr. Webster. He is comparatively a young man, no much, if any, over forty, and gives promise, there ore or follow that distinguished position for many years to come. What is very unportant, he is gound on the great question of the Union; he will in all respects make an able and distinguished Judge, and will add increased lustre to that Bost which has been filled by a Story and a Woodbary, with so much ability. When such men as Benjamin B. Curtis are placea upon the beach of the highest Court in the land, the American profile may well feel proud of their institutions, and rely with confidence upon their perpetuity.

HEA man by the name of Francis Carpenter, of North Kingstewn, of intemperate liabile, was found deal, just Tuesday, on the west shore of Beaver Tail. He had been missing about a week, and his friends supposed that he was in this town.

Por the information of there interested, no have been requested to state that it was the intention of the Treasury Department to have the floating 'Light (a lege and fine versel now at Carysfoot Reef) removed to Brenton's Reef, as com as the Light Pouse latery evented there, by the Topographical Bureau, should be in readiness for lighting, and be transferred to the Department. But the cordy Lighting apparatus, (French Lienses) designed for this establishment, having become involved in litigation in New York, the lighting has thereby beer deterred and therefore, the Light internal for Brenton's Reef is for the pres, at detained.

The Warren Star, speaking of the late meeting of the Warren Baptist Association in this town, says,-

From the letters, it appeared that there are now thirty-nine churches within the bounds of the Association, con-tening about 7000 members. Two tourishing charenes recently organized were received at the late meeting. All the services were distinguished by in the bounds of the Association, con-

a quiet, orderly, and devotional attention to the proper business of the body, to the exclusion of all subjects not imme-diately relating to the religious condition of the churches. No resolutions or disor me charactes. No resolutions of dis-cussions were proposed which were for-eign to the well known and acknowledg-ed design of a featernity of Christian churches seeking to promote each oth-age wellfare.

ers welfare.
The public services were very prop erly brought to a close, on Thursday atternoon, by the administration of the Lord's Suppor, to which the members were invited by the church with whom

the Association met.

Great praise is due to the generous hospitality of the friends in Newport.—

Accommodations had been provided for twice the number in altendance.

There are now in Newport three Bap-tist Churches, the first under the charge of Rev. Mr. Adlam, the second under Dr. Choules, and the Hird, or Central Church, under Rev. Henry Jackson.— They are all in a flourishing condition, and, which is not the least thing to be noticed, at peace among themselves.—
There probably never was a time when the Baptist cause in Newport was so prosperous as it is now.

The Association adjourned to meet in Warren next year, on the old Com-mencement day, the first Wednesday in ntember.

Bostos, Sept. 19th, 1851.

The procession commenced moving at 12 o'clock President Fillmore and Lord Elgin, with their saits, occupied sel trate barouches. Both were repec edly cheered by the spectators.

The dispaly is the granucal that ever took place in Boston-the trades being out in tell force, each with some noble epecimen of their manufacturing. The line of procession is at least two

miles long, and the streets through which it is passing are densely crowded with people, and more enthusiasm prevail- than we ever saw here. Almost every store and dwelling on

the route is elegantly decorated with flags, steamers, and bequets of flowers. &c. Many of the entablatures containing appropriate mattaer.

Preparation are made to feed the millies in the Common, after the procession is over.

At least 160,600 strangers are in town. The weather is magnificent.

No papers have been issued to-day There are six divisions of the procession, and but two have passed up to this hour, 2 o'clock and 15 minutes.

New Orleans, Sept. 17. Jefferson Davis, U. S. Senator, from Mississippi, has consented to run as the secession candidate for Governor of that state, in place of General Quitman, who

The "Republic" at Washington has an article showing that the outrage in Christiana is an act of treason against the United Stater, under the clause of Hevying war against the United States" which the Constitution defines to be treason. The first Congress passed an act to carry out this provision of the Constitution, declaring that the crime of treason should be punished by death. The same law also provides that-

"If any person or persons, having knowledge of the commission of the treasons aforesaid shall conceul, and not, as soon as may be, disclose and Mare KNOWN THE SAME to the President of the United States, or some one of the judges thereof, or to the President or Governor of a particular State, or some one of the judges or justices thereof, such person or persons, on conviction, shall be adjudged guilty of misprison of treason, and shall he imprisoned not exceeding secen years, and fined not exceeding one thousand dollars."

The Republic shows how the Whiskey rebellion was treated in Pennsylva nia, when in 1701 an insurrection took place in the four western counties of Pennsylvania, to prevent by force the xecution of two acts of Congress:

"Vigol was indicted in April, 1795, for high treason in lovying war against the United States, on the charge of reristing and preventing by force the exeoution of the said acts; and was wied at a circuit court held in Philadelphia, Judges Patterson and Peters on the beach. The overt acts being proved by two witnesses, the case was submitted to the jury without argument, under the charge of the court, which was delivered by Mr. Justice Patterson."

Vigol was sentenced to death, and afterwards pardoned. We quote again: "A few years afterwards Congress passed an act (1798) providing for a valuntion of lands, &c.; and in the same year an act laying a direct tax. In the year following an insurrection took place in the counties of Bucks and Northampton, in Pennsylvania, to resist the execution of there laws. Fries was arrested and committed as one of the ringleaders in the insurrection.

"Fries was brought to trial at a circuit court held in Philadelphia in April, 1799, before Judges Iredell and Peters. The facts alleged in the indictment being fully proved, Lewis and Dallas, the able counsel of the prisoner, rested his defence on the points of law."

After a full d'scussion, the principle established in Mitchell's case was reaffirmed, "that to resist or prevent by force the execution of a particular law of the United States, did amount to levying war against them, and was there-

lore treason." There are other examples of like import and leading to like results.

A good story is told of a Yankee who went for the first time to a howling alley, and kept firing nway at the pins, to the imminent peril of the boy, who, so far as having any thing to do in "setting up" the pins was actively at work in endeavoring to avoid the Talls of the player, which stattled on all sides of the vesterday forenoon, via Bristol and Fall pins without touching them. Atlength the fellow scring the predicament, the boy was in, yelled out, as he let drive another ball, "Stand in a nongst the pins, if you don't want to get hit."

RETRIBUTION AT NEW OLDERS. The people of New Orleans are beginning to reap the fruit of inviting young nien to congregate there in the buccaneering expedition in which Lopez was engaged. The papers now are almost imploring these same young men to leave the city quietly, assuring them that the people of New Orleans know well how to "speed the parting guest." On the other hand these recklers young fellows do not seem willing to leave their quarters, and have shown a disposince to riot, avowing their belief that the Cuban committee have lunds, but will not produce them.

The atrocious project of Lopez seems to be leading all involved in it into a savage quartel. The Cuban committee have endeavored to quiet the growing suspicion and digust by publishing the follo ving card-

In entering upon the discharge of their duties they found a large body of men in this city from abroad, who had culisted in the cause of Cuban independence, waiting an opportunity for transpartation to the island. A GREAT MAN .- A great man commonly disappoints those who visit him. They are on the look out for his thunder and lightning, and he speaks about common things much like other people; may, sometimes he may even be seen laughing. He proportions his exertions to his excitements; having been accustomed to converse with deep and lofty thoughts, it is not to be expected that he will flare or sparkle in ordinary chitchat.
